Lit Verlag Feb 2011, 2011. Taschenbuch. Book Condition: Neu. 209x147x18 mm. Neuware - This volume is part two of a selection of articles on migration movements in, to, and from Southeast Europe. It aims at a better understanding of the complex migration processes which deeply affect Balkan societies, both presently and in the past. The articles presented here focus on the ways and strategies of migrants, on 'irregular migration' in and to, as well as on 'transit migration' through the region, while others deal with the effects of return migration on Balkan societies. They present empirical findings on migration which are of interest not only for experts on Southeast Europe and on migration processes in general, but also for those interested in European integration and in the consequences of EU migration policies. 309 pp. Englisch.
