Pulp and Paper: And Other Products from Waste Resinous Woods (Classic Reprint)

By F P Veitch

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Pulp and Paper: And Other Products From Waste Resinous Woods The idea that the waste long-leaf yellow pine, Norway pine, Douglas fir, and other woods rich in resins can be used for the making of paper, wood turpentine, rosin oils, and similar products is not new, but the industry is just beginning to develop. It has received more or less attention in this bureau during the past seven years, where information as to its feasibility and practicability and as to the yields and character of the products which may be made has been gathered. This information points the way to the means whereby valuable timber may be conserved and the menacing waste wood of the lumbering operations may be profitably utilized. The making of paper from these woods presents no unusual difficulties; in fact, several mills are running almost exclusively on such woods, while others use them in greater or less quantity. The recovery of wood turpentine, pine oils, and other products from resinous woods by steam or destructive distillation has been fairly well worked...
