Collingwood is most famous for his book *The Idea of History*. The book came to be a major inspiration for philosophy of history in the English-speaking world. It is extensively cited. According to Collingwood, the science which is dedicated to the study of mind is history. Collingwood's philosophy of mind and action is thus to be found in his philosophy of history, primarily in *The Idea of History* (1946). The claim that history is the study of mind is *prima facie* counter-intuitive because many of us tend to think of history as a descriptive science of the past rather than as a normative science of thought. Collingwood's claim that history is the study of mind is in line with the distinction between the *Naturwissenschaften* and *Geisteswissenschaften* that is found in continental philosophy of social science. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
